

2000 International Automotive Media Awards presented at the Meguiar's Luncheon, Mercedes-Benz Dinner and IAMC-SEMA Awards Banquet October 29-30, 2000—Las Vegas, Nevada

Recognition of Lifetime Achievement

Presented to Denise McCluggage, award-winning author, photographer, writer, and--incidentally, race car driver--having won the GT category at Sebring, 1961, and a class win in the Rallye de Monte Carlo in 1964. Among her current activities, she writes for AutoWeek.

Best of 2000

2000 News Media Information, Press Kit, Mercedes-Benz USA

Best of Divisions

Best of Books (writing) — French Kiss of Death: Steve McQueen and the Making of LeMans, Bentley Publishers

Landmark Awards

sponsored by Hagerty Classic Insurance

For works created over 20 years ago, which have stood the test of time—pioneers or standard-setters in their fields.

Q-96 Books

Stand on It, by Stroker Ace, authors Bill Neely and (the late) Bob Ottum. Published in 1973, reprinted many times, basis for the movie Stroker Ace, this work of fiction was first to focus on the racers, not the racing; has become a cult classic; and is still in print. Award to Bill Neely.

Q-98 Magazines

In 1973, Bob Stockton of Goodyear's PR department, initiated auto racing stories and reports in the Goodyear salaried employees' magazine, Perspectives, to encourage employee support for Goodyear's racing program. Today, many company magazines report on company-related auto racing activities. Award to Bob Stockton

Q-102 Radio/Video

AutoShow, first aired in 1975, pioneered today's car-oriented radio shows with reviews, live interviews, call-ins and more; host Howard Kenig continues on the air today. Award to Howard Kenig

Sponsors

IAMC thanks its sponsors, Meguiar's, Inc., Mercedes-Benz USA, and SEMA; and Landmark Award sponsor Hagerty Classic Insurance

Overview of IAMC Rules

The International Automotive Media Competition (IAMC), a function of the International Society for Vehicle Preservation, is an awards program. The purpose of this program is to recognize and encourage excellence in all forms of automotive media.

Judging is by peers, to a standard; entries may earn up to 100 points. The International Automotive Media Awards (IAMAs), Bronze (85-91), Silver (92-96) and Gold (97-100) medallions, are presented for those works so qualified.

From among the highest-point (98-100) Gold awards are chosen the Best of Divisions, with Best of 2008 being chosen from the Best of Division awardees.

Thus, the IAMA Medallions are a competition against a standard, whereas the Best of Divisions and Best of the Year IAMAs are a competition against other award-winning works.

Judging

Judging of entries is by peers. Entries must meet a minimum standard to qualify for awards. If no entry in a category meets the minimum standards no award will be made in that category. Entries will be judged by Category within their Division.

About the International Automotive Media Competition

The International Automotive Media Competition (IAMC), is a program to recognize and encourage excellence in all forms of automotive media.

The IAMC™ is administered, produced by and is a property of The International Society for VEHICLE Preservation, ©2000, all rights reserved. ISVP™ is a non-profit 501 (c) (3) educational organization.

IAMC and the International Automotive Media Awards (IAMA) are the property of ISVP™.

All awards are final.

All entries are made at the discretion of the entrant. Entering does not mean that you will be presented with an award or receive recognition for entering. The use of an award for commercial purposes is permissible; write for details as to how to present it.

IAMA Recognition of Lifetime Achievement

This award is given to an individual who has, in the eyes of his or her peers, made a substantial contribution to the craft for a period of twenty-five or more years.

This award is determined by thirty members of the automotive media from a variety of disciplines voting for persons whose names are submitted by five nominators.

Nominators and voters change each year. The continual varying of selectors and voters ensures a broad cross-section of input in determining each year's recipient.
